- 11:35am C&L get to Proposal Location
- 11:55am C&L walk to Prato from Proposal Location
- 12:00pm C&L Arrive at Prato

## MAP

**Winter Park Farmer's Market, view from New York Avenue in Winter Park**

**Winter Park Farmer's Market view from corner of New York Avenue, and New England Avenue.  
Proposal location is North West (form this view) across railroad tracks.**

If you walk straight down New England road (the Winter Park Farmer's Market is now behind you from this view to the right) this is the next view you will have as you approach the railroad tracks.

As you keep walking forward, you come up upon a path you can see that the arrows are pointing to.

As you walk down the path, you go underneath a lanai, which there is an area that opens up and looks at the fountain to the left, as indicated in the box in the above picture. The easel and painting should be placed to the left. So when C&L enter the box, if they turn to the left they will see the painting.

This is exactly where the painting should be placed, with the back of the easel facing the fountain. The railroad tracks and Farmer's Market are to the left, and Park Avenue is to the right. This is the view of the proposal site.

**Just for perspective purposes, you can see the fountain here with Park Avenue to your back. The proposal site is to the left.**

**In this photo, you can see the proposal site clearer, and the fountain.**
